

# Region 6

## 2014 Block Management Program

Region Six has 311 ranches enrolling approximately 1.2 million private acres in Block Management and providing enhanced access to over 550,000 public land acres. These areas offer excellent opportunity to hunt whitetail and mule deer, elk, antelope, upland game birds, and waterfowl. Although habitat conditions are good, we have lost large portions of CRP habitat throughout Region 6. Hunters should be prepared to adapt their hunting practices. Please be sure to read the county information below for 2014 hunting outlooks.

Most of our Block Management Areas (BMAs) are open from September 1 to December 31, but some open early for the early antelope season. Some landowners, including those not enrolled in Block Management, may be able to accommodate hunters with special needs. Hunters are encouraged to contact our regional FWP Office to determine if opportunities exist to meet specific needs.

Two kinds of BMAs are available in Region Six, classified as Type I and Type II BMAs. In this region, Type I BMAs are areas in which hunters administer their own permission by using daily sign-in boxes. Type II BMAs are areas in which written permission is given to the hunters by landowners.

Hunters can obtain specific BMA maps and rules on site at sign-in box locations or at landowner residences. Region Six maps showing all BMAs are on display at the Glasgow and Havre offices and will also be available online at [fwp.mt.gov](http://fwp.mt.gov). The Region 6 Hunting Access Guide detailing all Region 6 BMAs is available through the regional offices or online the middle of August. Hunters can also use this guide to compare BMAs on the included regional map, with the correlating BMA description charts to compare size, geographical location, and hunting opportunities desired.

The Region Six Block Management Staff encourages you to share your experience on specific BMAs by sending comment cards, pictures, or letters to the Glasgow office, or by dropping off comment or survey cards in sign-in boxes. We share these with landowners to show your appreciation, or to help improve the program.

---

### TABLE OF CONTENTS

Chouteau County.....	64
Hill County.....	64
Blaine County.....	65-69
Phillips County.....	70-72
Valley County.....	73-76
McCone County.....	77-79
Garfield County.....	80
Richland County.....	81-82
Dawson County.....	83
Daniels County.....	83
Sheridan County.....	84-85
Roosevelt County.....	86

## Region 6

# Montana Fish, Wildlife and Parks - Region 6

## **Chouteau County**

The majority of Chouteau County is comprised of private land. Significant blocks of BLM lands are located along the Missouri River. There are 2 BMAs with approximately 17,000 acres of land enrolled in the program within the county.

There are good population densities of mule deer along the Missouri and Marias Rivers, and south of the Bear Paw Mountains. There is a quality white-tailed deer habitat along the Missouri and Marias River bottoms and associated CRP acreage although white-tailed deer populations are currently below average. Antelope occur in moderate densities near Big Sandy, especially west in the agricultural areas.

There are good numbers of sharp-tailed grouse in the foothills of the Bear Paw Mountains and fair numbers of partridge throughout the county. Pheasants are found mostly along CRP and streams. A low population of sage grouse can be found along the Missouri Breaks.

There are good duck and goose hunting opportunities along the Missouri River.

## **Hill County**

The majority of Hill County is comprised of private land. There are 4 BMAs with just over 20,000 acres enrolled in the program within the county.

Due to harsh winter conditions, mule deer numbers have decreased to average population densities around the Bear Paw Mountains and low populations along the Milk River. White-tailed deer can be found throughout the Bear Paws and along the Milk River. Antelope are scattered in moderate densities due to limited habitat.

Sharp-tailed grouse can be found in higher densities in brushy coulees near the Bears Paw Mountains and on the prairies. Sage grouse numbers are limited due to small amounts of habitat available. Partridge can be found throughout the county in fair populations, but numbers may be down due to wet spring conditions. Pheasants are found in moderate populations along the Milk River area.

Ducks and geese are found throughout the county. Above average precipitation in 2013 should result in improved wetland conditions and waterfowl hunting opportunities.

## **Blaine County**

About 50% of Blaine County is made up of private land. Significant blocks of BLM are located in the north and southeast portions of the county. There are 34 BMAs with over 366,000 acres enrolled in the Block Management program in this county.

Mule deer surveys indicate numbers are below average in North Blaine County, but near average in South Blaine County. White-tailed deer are found along the Milk River area and throughout the Bear Paw Mountains, but populations are currently below average. Antelope numbers are currently below average in Blaine County.

Upland bird numbers are expected to be near or above average this year due to favorable

precipitation and cover conditions. Sharp-tailed grouse occur throughout much of the county, but are often found in higher numbers near brushy coulees in the Bear Paws and prairie habitats. Sharp-tailed grouse are expected to be at good population levels this year. Sage grouse populations are low throughout most of Blaine County due to the limited amount of sagebrush habitat. Partridge can be found throughout the county in fair populations. Pheasants can be found in moderate to high densities along the Milk River area and pheasant numbers are expected to be near average.

Ducks and geese are found throughout the county and wetland conditions are good this year which should result in above average waterfowl hunting opportunities this fall.

### **Phillips County**

Although the majority of Phillips County is private land, large amounts of BLM land also occur throughout the county. The Charles M. Russell (CMR) National Wildlife Refuge (NWR) is located along the south edge of Phillips County and borders Fort Peck Reservoir. Bowdoin NWR, as well as several small Waterfowl Production Areas and Wildlife Management Areas, are also found here. There are 27 BMAs with over 202,000 acres of private land and enhanced access to public lands.

There is good mule deer and antelope habitat across the county; however, populations are currently lower than average. Mule deer are generally found in the prairie, badlands and breaks habitats, while antelope occupy more gently sloped prairie and agriculture habitat. White-tailed deer are located along the Milk River bottom and in areas associated with private land agriculture in North and South Phillips County and current populations are below average.

Elk are primarily found in the southern portions of the county in the Missouri River Breaks and Larb Hills. All elk hunting is by special permit only in these areas. Hunters having an elk permit should be prepared to hike at least a mile away from roads and have some means to retrieve their elk (game cart, pack, horses, etc...) since most elk are quickly pushed into secure habitat away from roads and trails. Elk numbers are currently strongest in HD 622.

Upland bird numbers are expected to be near average this fall with ample spring precipitation resulting in good cover conditions. Upland game bird numbers can also vary throughout the county due to localized weather conditions, such as severe thunderstorms and hail. Pheasant hunting opportunities are best along the Milk River and associated drainages but access is limited on private land and heavy hunting pressure on public lands, including Bowdoin National Wildlife Refuge. Sage grouse numbers are higher in the southern half of the county, while sharp-tailed grouse and Hungarian partridge can be found throughout the county. Wetland conditions are fair across Phillips County providing some waterfowl hunting opportunity.

### **Valley County**

The majority of Valley County is private land. Large amounts of BLM are located throughout the county. The Charles M. Russell National Wildlife Refuge is located in the southern portion.

Two Wildlife Management Areas (WMAs) are located near Hinsdale. In the Block Management Program, there are 41 BMAs with over 208,000 acres of private land and public land with enhanced access in Valley County.

Mule deer populations occur across the county. Mule deer numbers declined significantly during the record breaking winter of 2010-2011 and surveys indicated winter mortality occurred across all age classes. Excellent habitat conditions during the last two years as well as three mild to average winters have allowed mule deer numbers to start rebounding and their numbers vary from below long term average to average.

White-tailed deer can be found throughout Valley County, especially along the Milk River Valley; however, numbers are down significantly throughout the county due to an outbreak of Epizootic Hemorrhagic Disease (EHD) in 2011 and 2012. Whitetail hunters are advised to travel to the northern portion of Valley County and the northeastern portions of Region 6, where EHD was less severe and whitetail numbers are still near or above their long-term average.

Antelope populations also suffered historical declines as a result of the severe winter of 2010-2011. Although there numbers continue to rebound and they can be found throughout the county, the numbers this year are still down significantly from long term average.

The majority of elk are found in the Missouri River Breaks and all elk hunting is by special permit only in these areas. Elk numbers are near population objectives in HDs 631 and 632.

Sharp-tail grouse numbers are expected to be good this fall, and are found mainly in the northern part of the county and in the Missouri Breaks. Sage grouse numbers this year are expected to be below average, and are best found in the southern part of the county. Hungarian partridge populations are spotty. Pheasant populations are expected to be good due to the recent mild winter and excellent habitat conditions this spring and summer. Pheasants are typically found within the Milk River valley and can also be found in CRP and other associated riparian habitats outside the river valley.

Waterfowl can be found throughout the county in stock ponds and along the Milk and Missouri Rivers. Good waterfowl hunting opportunities should be present this fall.

### ***McCone County***

The east half of McCone County is mainly privately owned. BLM acreage increases in the west. The Charles M. Russell National Wildlife Refuge is located on the extreme west border. There are 15 BMAs with 88,000 acres enrolled in the program in the Region Six Portion of the county. There are also some BMAs located in the county that are administered by Region Seven.

Mule deer are found throughout the county especially in rougher country and populations are below long-term averages, especially on the western end of the county in HD 652. White-tailed deer numbers are down significantly in McCone County due to the EHD die-off in 2011.

The antelope populations also declined during the winter of 2010-2011. They are best found in

the southern half of the county.

Sharp-tailed grouse numbers are expected to be good and can be found in rough/brushy country. Sage grouse populations are expected to be below average and can be found in sagebrush habitat. Hungarian partridge are found in spotty populations. The best areas to find pheasants are along the Missouri River, in CRP and associated riparian areas.

Waterfowl can be found throughout the county at stock ponds and along the Missouri River. Wetland conditions and waterfowl numbers are very good this year.

### **Richland County**

The majority of Richland County is privately owned. Hunting access is fair, except along the Missouri River where access is more restricted. There are 11 BMAs with 74,000 acres enrolled in the program in the Region Six part of the county. There are additional BMAs located in the south and east portions of the county administered by Region Seven.

White-tailed deer are distributed throughout the county, but populations are currently at below average levels due to a recent outbreak of Epizootic Hemorrhagic Disease along the Missouri and Yellowstone Rivers. Mule deer numbers are near average and can be found throughout the county within suitable habitats. Antelope populations continue to remain below average due to the severe winter of 2010-2011.

Sharp-tailed grouse and pheasant numbers are good in the majority of the county, while partridge are found in spotty populations. Habitat conditions have been good and the county is producing good numbers of upland game birds. The pheasant and turkey populations are fair and are strongest along the Missouri and Yellowstone River bottoms.

Waterfowl can be found throughout the county in stock ponds and along the Yellowstone and Missouri Rivers. Wetland conditions were good in 2013 and 2014; good waterfowl hunting opportunities should be present this fall.

### **Daniels County**

Daniels County is comprised of about 50% private land and 50% state owned land. There are 7 BMAs with over 56,000 acres enrolled in the program.

White-tailed deer populations are at average to below average levels. Mule deer populations are currently near long term average. . Antelope populations are fair in suitable habitat, but are currently below average levels.

Sharp-tailed grouse and pheasant populations are doing well thanks to good habitat and wintering conditions last year and good habitat conditions this spring and summer. Brood production is expected to be good as well. Although habitat conditions are good, we have lost large portions of CRP habitat throughout Region 6. Hunters should be prepared to adapt their hunting practices. Partridge populations are fair in suitable habitat, and are currently near average levels.

Waterfowl hunting opportunities are expected to be good, with abundant precipitation occurring this year.

### **Sheridan County**

The majority of Sheridan County is comprised of private land. Parts of the Medicine Lake National Wildlife Refuge and numerous Waterfowl Production Areas are open to public hunting. Contact the refuge headquarters for further information (406-783-2305). In the county, there are 18 BMAs with approximately 78,000 acres of land enrolled in Block Management.

White-tailed deer populations are at average to below average levels. Mule deer populations are currently near long term average. Antelope populations are limited due to marginal antelope habitat in this County.

Sharp-tailed grouse and pheasant populations are at above average levels due to good habitat conditions this spring and summer. Partridge populations are expected to be fair in suitable habitats. Habitat conditions in 2013 were good for upland game birds and production of young was good. Similarly in 2014, spring habitat conditions have been good and expect to support good brood numbers come fall. Although habitat conditions are good, we have lost large portions of CRP habitat throughout Region 6. Hunters should be prepared to adapt their hunting practices. Waterfowl hunting opportunities throughout the county are expected to be good due to good precipitation and wetland conditions this year.

### **Roosevelt County**

The majority of Roosevelt County is comprised of private land, with hunting access on good except for along the Missouri River. This county has 9 BMAs with over 77,000 acres enrolled in the program.

White-tailed deer are distributed throughout the county, but populations are currently at below average levels due to a recent outbreak of Epizootic Hemorrhagic Disease. There are good numbers of mule deer found in rough topography adjacent to the Missouri River. The county contains limited antelope habitat that supports a few antelope.

Sharp-tailed grouse and pheasant populations are currently at or slightly above average levels, except in some areas of the Missouri River bottom where the habitat is still recovering from flooding in 2011. Overall habitat conditions are very good for upland game birds and brood numbers are expected to be good this year. Although habitat conditions are good, we have lost large portions of CRP habitat throughout Region 6. Hunters should be prepared to adapt their hunting practices. Partridge populations are expected to be fair to near average. Turkey populations are limited to the Missouri River bottom and adjacent uplands.

Waterfowl hunting opportunities are good, with good wetland conditions and good precipitation occurring in 2014.

## Region 6

### 2014 REGION 6 BLOCK MANAGEMENT AREAS - CHOUTEAU COUNTY

\* BMAs located in the southern portion of Chouteau County are not listed in this book because they are geographically located in Region Four. These BMAs are listed in the Region Four Block Management Hunter Guide.

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
4	Robert Boyce (Chouteau)	30 mi. SE of Big Sandy on Warrick Rd	6,690	9/1-12/31	Written permission on site (7am-7pm) 386-2294	WT/M Deer	D/E 690 ANT 690	Rocky Boy	Hunter numbers limited to 20 per day. Walk in from designated areas
6	Mack Ranch (Chouteau)	8 mi. north of Big Sandy on Hwy 87	9,920	9/1-12/31	Written permission from house 7am-9am	WT/M Deer Antelope Upland Birds	D/E 690 ANT 690	Rky Boy Lnsn Lake	Up to 20 hunters per week. Park and walk from designated areas. No driving off main roads. No hunting near buildings

### 2014 REGION 6 BLOCK MANAGEMENT AREAS - HILL COUNTY

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/ BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
1	Martin C. Springer/ Sharon R. Bellar (Hill)	17 mi. S of Havre on Beaver Ck. Rd, 1.5 mi. Sucker Ck. Rd	3,032	9/1-12/31	Written permission at sign-in box.	WT/M Deer Upland Birds	D/E 690 ANT 690	Rocky Boy	10 permission slips available at sign-in box per day. No off road travel. Park and walk from parking areas. No dogs or horses allowed. More slips may be added as hunters leave. **NO written permission required after 12/1 - Walk in only**
3	Phalen Ranch (Hill, Chouteau, Blaine)	30 mi. south of Havre on Clear Creek Road	10,640	9/1-12/31	Contact landowner 395-5037 for permission 7am-7pm	WT/M Deer Elk	D/E 690 ANT 690	Rocky Boy	Up to 20 hunters per week. Park and walk from designated areas. No driving off main roads. No hunting near buildings
107	Spring Coulee (Hill)	9 miles S of Havre on MT 87, 1.25 miles S on MT 334	1,360	9/1-12/31	Written permission at sign-in boxes.	Antelope WT/M Deer Upland Birds	D/E 690 ANT 690	Rocky Boy	No campfires. Walk-in Only.
116	Giles Gregoire (Hill)	7 mi. south of Havre on Beaver Creek Rd.	5,205	9/1-12/31	Written permission at sign-in boxes. **Box B closed after 12/1**	WT/M Deer Upland Birds	D/E 690 ANT 690	Rocky Boy	No campfires. No Driving past or parking near buildings.

## 2014 REGION 6 BLOCK MANAGEMENT AREAS - BLAINE COUNTY

BMA No.	BMA Name	General Location	Acres	Dates Open to Hunting	Method for Obtaining Permission/BMA Type	Primary Hunting Opportunities	Hunting District	BLM or USFS Map	Additional Information
2	Shooting Star (Blaine)	15 miles south of Chinook on Lloyd Road	4,808	9/1-12/31	Written permission at sign-in boxes. **Box B & C closed after 12/1**	WT/M Deer Upland Birds Antelope Waterfowl	D/E 690 ANT 690	Rocky Boy	No off road travel
7	Earl Bahr (Blaine)	11 miles north of Chinook on Elloam Road, 4 mi N. on Sage Rd.	4,080	9/1-12/31	Written permission at sign-in boxes. **Box A closed after 12/1**	WT/M Deer Upland Birds Antelope Waterfowl	D/E 600 ANT 600	Havre	No hunting near buildings. No off road travel. Do not shoot foxes.
8	Halseth (Blaine)	6 miles south of Chinook on Barney Olson Road	753	9/1-12/31	Written permission at sign-in box.	WT/M Deer Upland Birds Antelope Waterfowl	D/E 690 ANT 690	Havre	Walk in only. No off road travel.
9	Paulsen Land Corp. (Blaine)	10.5 SW of Chinook on Clear Creek Road	1,660	9/1-12/31	Written permission at ranch house.	WT/M Deer Upland Birds Antelope Waterfowl	D/E 690 ANT 690	Rocky Boy	12 hunters per day. NO off road travel. No smoking outside vehicle. No driving on farm ground.
10	Williamson Ranch (Blaine)	39 mi. south of Chinook on Lloyd Road.	13,440	9/1-12/31	Contact landowner 395-5037 for permission 7 am – 7pm	WT/M Deer Upland Birds Antelope Waterfowl	D/E 680 ANT 690	Rocky Boy & Winifred	Up to 20 hunters per week. Park and walk from designated areas. No driving off main roads. No hunting near buildings
11	Gordon Cattle Co. (Blaine)	½ mi. W. of Zurich, 3 mi. N. on Cherry Ridge Rd	9,192	8/15-12/31	Written permission at sign-in boxes.	WT/M Deer Upland Birds Antelope Waterfowl	D/E 600 ANT 600	Havre & Harlem	Stay on established trails. <b>**NO written permission required after 12/1 – Walk in only**</b>
